Our story

BE THE CLIENT

Funteg began with a simple conviction: the best logistics decisions come from understanding the shipment as the client experiences it. "Be the Client" asks the team to look beyond movement from one point to another and consider the commercial pressure, timing and risk behind every assignment. Since incorporation in 2002, that approach has shaped how the company plans routes, communicates changes and builds long-term relationships. The team learns each client's business so that recommendations reflect the cargo, destination and delivery priorities rather than a one-size-fits-all process.

1992 **Freight experience begins**

The company's public profile traces its air and sea freight experience to 1992.

2002 **Funteg International Limited is incorporated**

The business develops a broader logistics offering around freight forwarding, customs support, warehousing and delivery.

Today **Local knowledge with international coordination**

FOUNDER'S LEGACY

04

Gbénle F. Joseph

Founder, Funteg International Limited

The late Gbénle F. Joseph founded Funteg International Limited after more than two decades of experience across shipping and logistics organisations. Professional training outside Nigeria broadened his perspective and strengthened his belief that local market knowledge should work together with international standards and disciplined coordination.

He guided Funteg's growth from core freight forwarding into air and sea freight, marine logistics, customs support, consolidation, warehousing and delivery. His focus remained practical: provide reliable service, protect the client's cargo and deliver value at a responsible cost. He expected the company to uphold integrity and excellence in every transaction while building a professional team committed to client satisfaction.

His service philosophy continues to shape Funteg's commitment to careful handling, honest communication and long-term client relationships.

Vision, mission and values

VISION

To build a globally respected logistics company, recognised for innovation, productivity and consistently high standards of service.

MISSION

To provide competitively priced logistics solutions through timely coordination, careful shipment handling and strict quality control, with client satisfaction guiding every stage of the process.

OUR VALUES

Integrity

We keep our commitments and act professionally.

Excellence

We pursue dependable service and continuous improvement.

Transparency

We communicate clearly about progress and changes.

Client satisfaction

We understand the need before proposing the movement.

Team spirit

We coordinate across disciplines and locations.

Honesty

We build trust through straightforward business conduct.

How we work

Every assignment begins with the client's requirements and ends with accountable delivery.

01 Understand the shipment

We establish the cargo type, volume, timing, documentation and destination requirements.

02 Build the movement plan

We select the freight mode, route, storage and handling steps that fit the assignment.

03 Coordinate every handoff

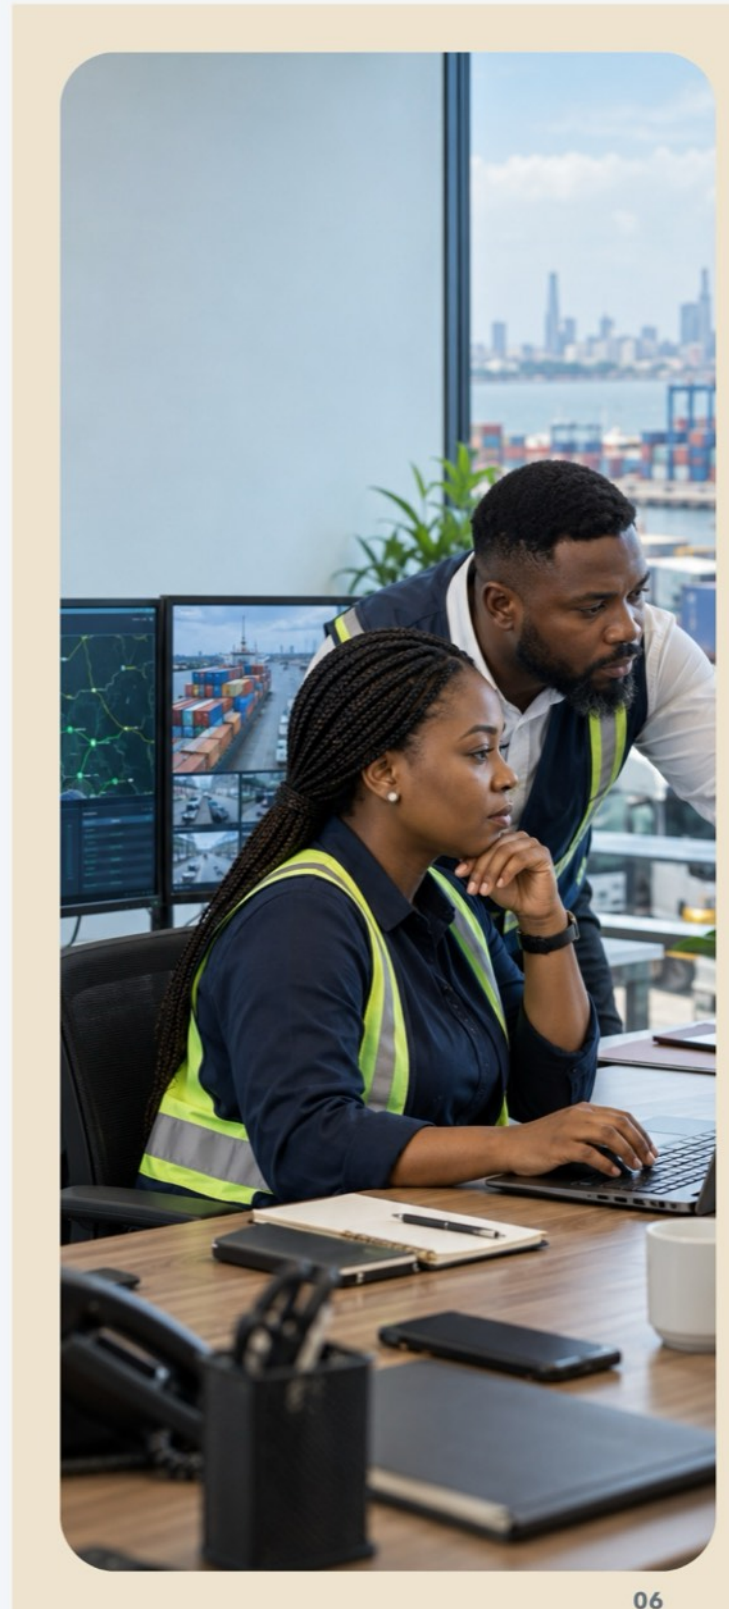

We align origin agents, carriers, customs processes and destination partners.

04 Protect time and cargo

We reduce avoidable delays and apply careful handling through loading, transfer and delivery.

05 Keep the client informed

We communicate progress, changes and decisions promptly throughout the movement.

Logistics services

A focused service portfolio built around cargo movement and coordination

- 01 **Air freight**
- 02 **Sea freight**
- 03 **Customs brokerage**
- 04 **Warehousing and storage**
- 05 **Door-to-door delivery**
- 06 **Shipment coordination and documentation**

Each service is tailored to the cargo, route and delivery requirements.

AIR AND SEA FREIGHT

International freight with local coordination

Funteg coordinates imports and exports through air and sea channels, aligning freight options with cargo type, delivery timing and destination requirements.

Capabilities

Air freight coordination
Sea freight coordination
Full container loads and groupage
Consolidation
Origin and destination support

Customs, documentation and cargo care

A shipment depends on accurate documentation and disciplined coordination at every handoff.

01 Customs brokerage

Support with customs documentation, cargo examination, port handling and clearance coordination.

02 Shipment documentation

Coordination of the records and regulatory requirements that support import and export movements.

03 Cargo handling and protection

Careful loading, unloading, packaging support and attention to shipment security throughout the movement.

The company tailors the process to each shipment's route, cargo characteristics and regulatory requirements.

WAREHOUSING AND DELIVERY

Cargo moves through a coordinated chain

Funteg helps identify suitable storage arrangements and coordinates the onward movement of cargo to its required destination.

Warehousing

Storage coordination, inventory handling support and preparation for onward distribution.

Door-to-door delivery

Local and international delivery coordination through trusted transport and destination partners.

NETWORK AND DELIVERY

Local knowledge supports international reach

Funteg combines a practical understanding of Nigeria's ports, airports, customs processes and inland delivery routes with the reach of established international logistics partners. This combination supports coordinated door-to-door movements across more than 190 countries, with one point of contact helping to align documentation, route planning, cargo handling and destination delivery. Service options remain subject to the cargo, route and local availability.

Let's move your cargo with confidence

Contact Funteg for freight forwarding, customs support, warehousing and delivery coordination.
